

Thank You for Your Interest in the Wingman 120 Warranty

Here's a quick guide outlining the steps to set up your account for the exclusive Wingman Warranty and start registering properties.

1

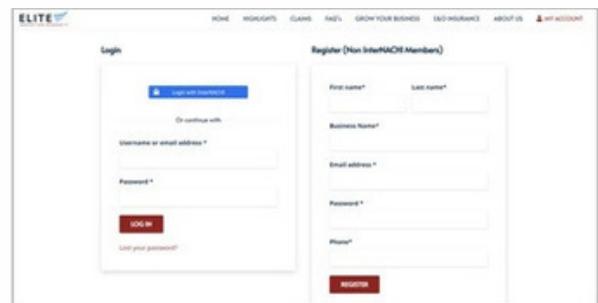

Register at <https://eliteinspectionwarranty.com/wingman>

Click on the NEW USERS blue button to create your account.

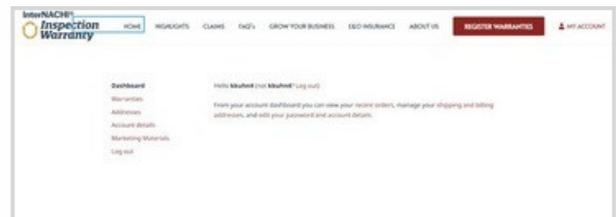

2

After creating your account, you will be required to accept the program's terms and conditions and add a payment method.

3

Once your account is registered you can start adding properties. If the "Add a Warranty" button is grayed out, there was an issue creating your account or you did not yet create an account.

General Comments:

- Each time you register a property, your credit card will be charged.
- After registering the property, you will receive a confirmation email, and your client will also get a confirmation email containing a copy of the terms and conditions, along with a link to file a claim.
- You have up to ten days following the inspection to register a property.
- If you miss this deadline, you can use the late registration link to request the property's addition to the program: [Late Registration Request]

(<https://www.cognitofrms.com/HWFORMS1/InspectionWarrantyLateRegistrationRequest>).
